MINISTRY IMPACT

*** I got a call from a client we saw back in October. She was abortion-minded. We encouraged her and gave her all the resources, but she remained abortion-minded and did not want to come back for a repeat ultrasound. The client called a few months later to let us know she decided to parent her baby and wanted to thank us for the role we played in that decision. When asked her what changed her mind, she said that she and the father of the baby needed time to think about things. She said that learning all the resources and support that were available was very encouraging. This made them think maybe they could do it. She said that “hearing my baby’s heartbeat made a really big impact on me.” This was a huge encouragement to me and a strong reminder that God is continuing to work in our clients’ hearts long after they leave our center!***

***A client came in that was so distraught and in tears trying to get seen by a doctor for her pregnancy prior to moving to Florida. She didn’t have the money the doctor was going to require for her to be seen and didn’t know what to do. She came to our center for a pregnancy test and said every single person she interacted with was so kind. She was in tears when she left, and said she couldn’t believe how kind and lovingly she had been treated here.

*** We had twelve women graduate recently from the Spanish parenting classes. The gospel was shared, and they were invited to attend a Spanish speaking church.
